**Boat Details**

Price	POA	Boat Brand	Mercury
Model	M8 Drive	Length	0.00
Year	2024	Category	Boat Engines and Outboards
Hull Style		Hull Type	
Power Type		Stock Number	0
Condition	New	State	Western Australia
Suburb	CANNING VALE	Engine Make	

**Description**

Mercury M8 Drive FEATURES

- Combines best features of the dry-sump NXT<sup>1</sup> & Six drives. Dry-sumped for maximum power-output. Delivers 35% more power capacity than the legendary Six drive.
- All-new surface piercing gearcase, packed with heavy-duty components, is designed specifically to handle the 1350's higher torque.
- New 5 & 6-blade CNC sterndrive propellers are designed with stamina to allow the engine to endure in both treacherous and ideal offshore conditions.
- Two inches shorter resulting in an overall lower center of gravity for improved handling and overall boat performance.
- All new dry sump hydraulic transmission to handle the 1350's massive torque.
- While the lower drive cavity is bathed in oil, a unique propshaft driven oil pump sprays the upper drive gears. This reduces internal friction, increasing performance.

**SPECIFICATIONS**

Max. Power Cap. □□□1350 hp Input torque rating of 1300 ft. lbs.  
 Lower Unit Design □□□Dry Sump Drive & Transmission  
 Max. Prop Diameter □□□18 inches  
 Available Gear Ratios □□□1.69:1, 1.53:1, 1.40:1, 1.30:1  
 Proshaft Rotation □□□Left Hand & Right Hand Rotation  
 Drive Weight (lbs./kg.) □□□280/127

**Features**

Horse Power (hp) 1350
