Steber International is not only one of Australia's major luxury boat builders, it is also one of the Pacific's best fibreglass commercial boat manufacturers.

Specialising in "purpose built" fibreglass boats, the wide range of highly successful proven Steber designs have been utilised for commercial fishing, diving and sightseeing charter, police, patrol and rescue operations, paramilitary, utility and professional sport and game fishing work.

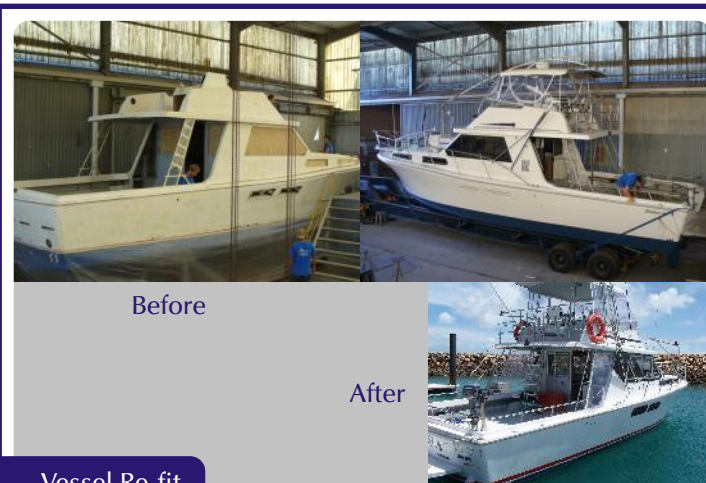

Steber take pride in delivering vessels with high performance, reliable operation and easy maintenance which are a pleasure to own and operate.

Climate Controlled Manufacturing

Steber International were one of the pioneers in the construction of fibreglass vessels in Australia, having commenced manufacture over 65 years ago. Originally producing timber clinker hull boats, Steber International changed to fibreglass (FRP) construction in 1959. The company has remained at the forefront of the industry and is now regarded as the premium manufacturer of pleasure and commercial fibreglass vessels and other composite components.

STEBER

At Stebercraft, the emphasis is "customer focused" as it has been for the past 65 years. Our Commercial vessels have enjoyed one of the best service records in the industry & our pleasure boats have continued to validate our reputation for unrelenting commitment to quality and contemporary designs

Stebercraft utilize the finest raw materials & hardware, as used in the international commercial boating industry. Fibreglass components are laminated to the most stringent standards, enhancing both safety as well as longevity of your boating investment.

Stebercraft boats have evolved over 65 years of boat building expertise to become one of the most tested and engineered vessels produced in Australia & have justifiably been recognized with numerous industry & independent awards.

They offer a host of innovations inside & out

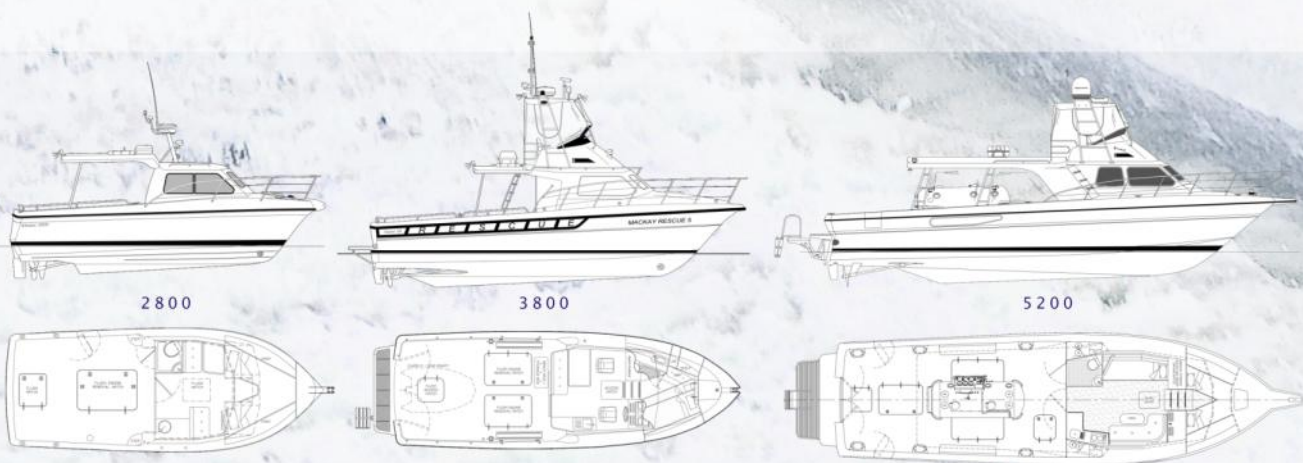

First rate performance and exceptional seaworthiness. Emphasis is on design excellence, the classic blend of age old tradition, contemporary boating concepts and space age technology...harmonious balance of tailored and traditional, sporty and futuristic.

Quality inclusions and fabrics, superb cabinetry and lavish detailing combine for a dramatic expression of style, into which Stebercraft offer you the pleasure of customizing your individual preferences and requirements.

A sound investment which optimizes the very best of sea craft, a unique combination of international luxury and Australian authenticity will be synonymous with your "pursuit for perfection"

Stebercraft Pty Ltd. / Steber International is located in Taree on the mid North Coast of New South Wales, a very beautiful part of the world, both scenically and climatically. This is the setting, combined with the Steber family's business acumen and its production of stylishly-designed, well built boats has contributed to the company's longevity.

The company has been kept at a manageable size, it has never been allowed to get "too big for its boots", which, with well trained staff, has ensured on-going, high quality products. Steber has remained flexible and quick to react to changes to market conditions. It has always been able to adapt its standard hull designs to commercial, leisure, military, police and other government users.
